

## Workshop on Process Safety Education by Prof. Daniel A. Crowl (Dec 2, 2014)

*Safety Centre, Indian Institute of Technology Gandhinagar*

Safety Centre @ IIT Gandhinagar takes immense pleasure to invite you to the workshop on Process Safety Education conducted by Prof. Daniel A. Crowl on 2 December 2014 at IIT Gandhinagar.

A specialized workshop on teaching process safety in the curriculum will be conducted as a part of **International Conference on Safety (ICS 2014)** by Prof. Daniel A Crowl (Professor in Chemical Engineering and Chemical Process Safety, Michigan Technological University) who authored many books on Chemical Process Safety including the famous "Chemical Process Safety - Fundamentals with Applications".

One of the major problems with teaching chemical process safety is that faculty do not have full awareness of how theory is placed into industrial practice. This workshop will provide an interactive, discussion oriented format that will assist faculty in understanding how theory is applied. The workshop covers an overview of Process Safety Education and will include presentation of traditional papers and case histories, Analysis of industrial problems and group activities in Emergency Response, Reactor Charging and Laboratory safety. The workshop is suitable both for University Faculty and Industry Professionals.

### About the Facilitator

#### **Prof. Daniel A. Crowl**

*Herbert H. Dow Professor for Chemical Process Safety,  
Department of Chemical Engineering, Michigan Technological University*

Dr. Daniel A. Crowl is the Herbert H. Dow Professor for Chemical Process Safety in the Department of Chemical Engineering at Michigan Technological University. Prof. Crowl's primary research interests are Chemical Process Safety and Loss Prevention. He is co-author of the textbook **Chemical Process Safety: Fundamentals with Applications** and author of the books : **Guidelines for Consequence Analysis of Chemical Releases** and **Understanding Explosions**. He is also the editor of 'Inherently Safer Chemical Processes- A Lifecycle Approach' and Safety Section of 'Perry's Chemical Engineers Handbook'. Professor Crowl is a member of the AIChE Loss Prevention Committee, and past chair of the AIChE Loss Prevention Symposium.

### Who should attend

*This workshop is suitable for academics, faculty and trainers. Number of participants is limited to 30.*

### Certificate

*IIT Gandhinagar will provide a Certificate of Participation upon successful completion of the workshop*

**Registration : Covers Attendance to workshop, Study material, Lunch and Tea Breaks and Free Attendance to International Conference on Safety (ICS'2014)**

The course fee per participant is **Rs. 8,000/-**, can be paid through online transfer / Demand Draft (Details on the Registration form). Registration can be done [online](#) (Choose 'workshop on Process Safety Education by Prof. Dan Crowl' or 'PSE 2014+ICS 2014') or by using the hardcopy of the registration form.
